Cather photos in Cather's 1902 scrapbook from her trip to France:

Snap shots show cather grouped with friends, posing outside of buildings

One in particular where she is posed on a rock her right hand extended, looking off to her left. Whit blouse, long skirt, hat.

Photograph of Cather by Chester Cathedral (?) Cather is staring off to the right, with the building behind her. Foliage in foreground—sharp spears.

Opening image, Cather wears a wool hat, on steamer with little girl. Cut into oval shape, with cather tilting her head and giving a faint, dimpled smile to the photographer. An exciting look for her—a great opening image to begin this scrapbook.
